

The Vaccination Clinic Price List

Many insurance companies do not cover the total cost of vaccinations. Therefore, payment will be expected at the time of service. A copy of your bill will be provided to you to submit to your insurance company. The cost to you reflects the cost of the vaccine as well as the injection fee. The ICD-9 codes are included so you can check with your insurance company about their reimbursement schedule.

	Fee	ICD-9
Tdap - Diphtheria, Tetanus and Pertussis	\$ 85	V.06.1
Gardasil (HPV)	\$165	V04.89
